

JEREMY CHEVALIER

CCV has provided me with a great opportunity. Affordably continue my education and balance my personal life at the same time. So far the experience has been encouraging. The staff is helpful and with a combination of online and on campus classes the schedule is manageable.

After coming to the conclusion that I had reached a point in my career where I would either have to apply for positions that didn't suit me or required a lot of time away from my family, I decided to go back to school. Making a career change at this point in my life was going to require an education. After many discussions with my wife and a couple of meetings with my advisor I took the plunge. I started with an online class because I felt it would be easier to fit into my schedule. I was nervous at first but it turned out to be a great experience. With the confidence gained from taking the first class I decided to take two more and I'm confident that I will have my degree in no time.

I currently working toward an associated in accounting and hope to continue on to a bachelor's degree. I'm confident that this will provide me with the opportunity to start a new and more fulfilling career.
